A surreal image of a baby sitting on the edge of a skyscraper, looking down at a vast cityscape. The baby is wearing a light-colored sweater. The city below is densely packed with buildings, and the sky is a clear, pale blue.

Allargate il vostro spazio abitativo.

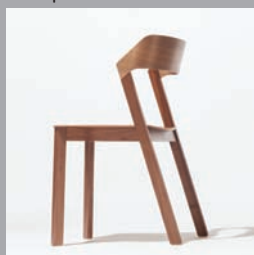

Le finestre scorrevoli senza telaio Sky-Frame si inseriscono nel vostro ambiente senza chiuderlo. Tanto che è difficile dire dove finisce l'interno e dove comincia la vista sull'esterno.

A REVOLUTION IN CERAMIC DESIGN.

SaphirKeramik™ allows a new language in ceramic design,
where precise, thin-walled shapes and tight edge radii are possible:
A high-tech material at the core of new design.

Sustainability driven innovation

Innovation must be favourable to mankind and to the environment and Logica System is a concrete example of this. As well as revolutionising kitchen ergonomics to achieve greater comfort, the Logica System with Invitrum base units is composed of only 100% reusable and recyclable materials as well as being assembled using only mechanical joints instead of glues **to reduce toxic emissions to zero.**

**The Esteem of Craftsmanship.**

Traditional manufacture is distinguished by high standards in material and craftsmanship. At Gaggenau we still uphold this tradition today, in every product, every day. Visit us in Hall 9, Stand A12.

GAGGENAU

link

designed by Harry Hersche

one like no other.

The Link screen was designed with the principle of uniqueness in mind. Innovative in technology. Masterly in technique. Effortlessly combining intelligence and design, it is truly one like no other. You wouldn't expect any less from strasserthun.

The Swiss family business is as unique as its products. Newly interpreted materials fascinate designers and inspire architects. State-of-the-art materials. Pioneering processes. And a passion for craftsmanship. Since 1947 – day after day.

One of the most successful innovations to come out of the **Black Forest**.

And a cuckoo clock.

Come and see us in person **at stand A 12 in hall 9.**

In the Black Forest, some things never change. Others have been evolving since 1683. Ever since our company was founded as a hammer and nail works, innovation has become a tradition for us. Such as the ovens 400 series, shown here with oven, Combi-steam oven and warming drawer – uniting cutting-edge technology with superior design. Finally, our appliances have been constantly evolving. What stays the same: they just keep looking better and better.

The difference is Gaggenau.
