

ARCHITONIC GUIDE

BAU
MÜNCHEN
2017

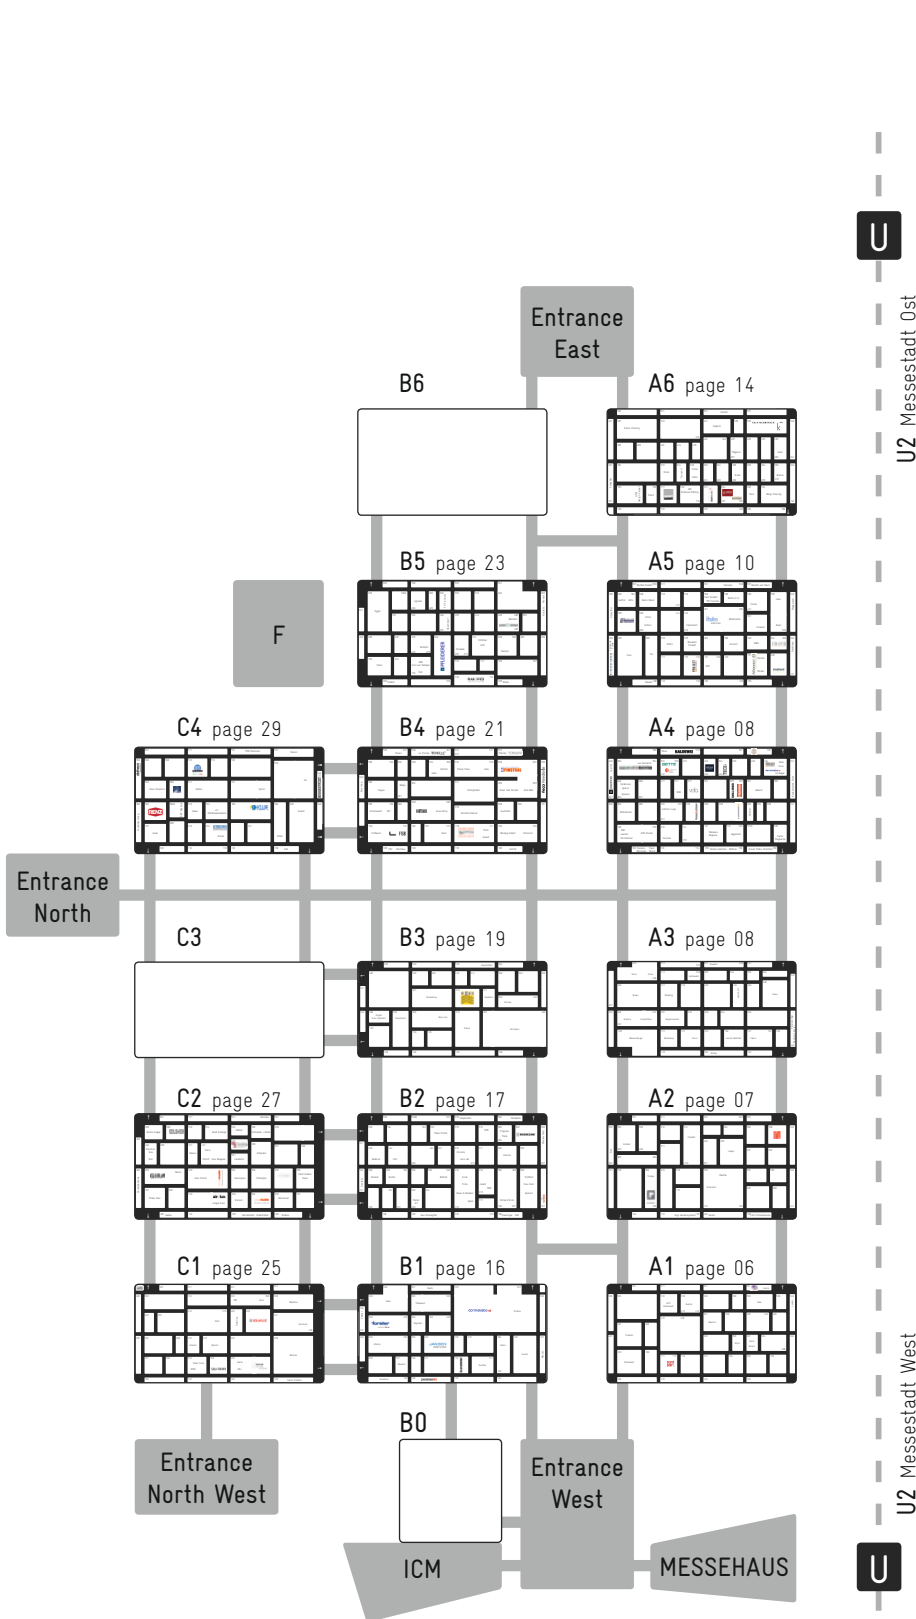

16-21 JANUARY

Der Architonic Guide möchte Ihnen Orientierung geben und dabei helfen, die besten Aussteller schnell zu finden. Die Auswahl von Architonic ist rein redaktionell und beschränkt sich auf Premium-Hersteller von Produkten, die für die Gestaltung von Gebäuden und Räumen relevant sind. Ein Guide von Architekten für Architekten.

The Architonic Guide allows you to find the best exhibitors quickly. Architonic's selection is purely an editorial one and is limited to high-end manufacturers whose products are relevant to the design of buildings and spaces. It's a guide by architects for architects.

ARCHITONIC TREND ANALYSIS

TOP 10 GLASS DOORS

from Architonic Members exhibiting at BAU

Architonic is the world's leading research tool for the specification of premium architectural and design products. Our curated database currently provides information about more than 300,000 products from 1,500 brands and 10,400 designers. 16 million architects, interior designers and design enthusiasts annually choose Architonic as their guide to the very best. This gives us an insight into developments in the architecture and design markets, which we would like to share with our community. For BAU 2017, we have identified the top 10 most popular glass doors on architonic.com from BAU 2017 exhibitors.

The ranking is based on the number of page views on architonic.com, which depends on different traffic sources linking to the respective product, such as navigation on architonic.com, direct links via Google and advertising campaigns linking to the product among others. The rankings are limited to Architonic Member brands exhibiting at BAU 2017 and their products. All information was collected in the period March to November 2016.

FOR MANUFACTURERS

MEMBERSHIP FOR MANUFACTURERS

Every working day 46,000 professional visitors carry out product research at Architonic. Take the opportunity to present your products where customers are looking for them: You will get daily views, clicks and contacts.

MULTICHANNEL ADVERTISING

Your online campaign can be precisely focussed on the target group, with placement right at the heart of the architecture and design scene. A variety of different channels, such as website banners, editorial posts and social media posts across the Architonic and Designboom networks are at your disposal.

PRODUCTS & NEWS APP

Architonic produces customised apps exclusively for its members! You can make your tailor-made app available in the AppStore or Google Play in a matter of weeks. And there is no additional work for you to keep it up to date, as we continuously access your products and reference projects in the Architonic database.

VIRTUAL REALITY

Architonic has teamed up with leading virtual-reality experts designconnected.com to bring you a suite of cutting-edge digital services that will transform the way your products are experienced. We can provide you with powerful, bespoke sales and marketing content for you to use everywhere, on any type of online and offline channel.

Step One: Product digitisation

Let us create high-end, photo-realistic 3D model files of your products for use by render studios and CAD files in various formats for architects and planners to use in their BIM and planning software.

Step Two: Product Visualisation

- Allow us to create a collection of immaculately rendered virtual photographs of your products, showing them from any perspective and presenting them in any colour and material of your choice.
- Either following your creative direction or allowing us to develop a concept based on an initial brief from you, we can bring your products to virtual life by producing tailored digital photo-shoots, videos and interactive that present and animate them in a carefully crafted and unique interior-architectural space.

FOR RETAILERS & AGENTS

MEMBERSHIP FOR RETAILERS & AGENTS

Every working day more than 150,000 product data sheets are accessed at architonic.com. Every time a data sheet is accessed our WHERE TO BUY? service appears, exclusively listing the specialist retailers and agents who are our members in the specific locality.

VIRTUAL SHOWROOM[®]

On your own website you present the products of those manufacturers which you represent: clearly organised, always up to date and adapted to your corporate identity. This enables you to generate a regular supply of new customers, make an impression with your service and train your staff.

VIRTUAL SHOWROOM APP[®]

We are delighted to offer you an app that's tailored to your company's needs. The products of your brands will be loaded into the app straight out of the Architonic database and updated automatically. In addition, we will cross-link these products with reference projects featured in the architonic.com archive and your news feeds will be featured in a daily updated news area within your app.

ONLINE SHOP MODULE

The Online Shop Module is a web-based, e-commerce software product, which specialist retailers and interior designers can, on licence, implement into their websites. The module can be modified to fit the client's brand identity, and, pulling product data straight from the Architonic Data Cloud, allows a fast and cost-effective entry into the world of e-commerce.

FOR ARCHITECTS & DESIGNERS

MEMBERSHIP FOR ARCHITECTS

We publicise your best projects and your profile where the right people will see them. Our jury makes sure that the environment is a top-quality one. More than 30 selected media partners make regular use of our information pool.

PRODUCT RESEARCH

Architonic offers you a comprehensive reference database with 300,000 professionally classified furnishing and building products and materials. You can carry out research without limits and free of charge, with direct access to CAD files, PDF catalogues, prices and dealer lists.

Gira E3

Harmonious shapes, pastel colours.

02

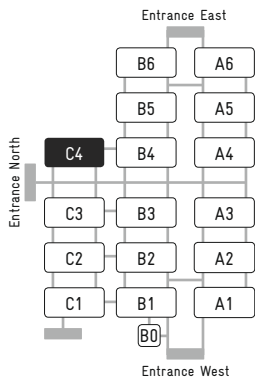

03

The new Gira E3 switch range combines rounded design contours with satin-finish and glossy surfaces in nine pastel shades. A wide variety of designs can be created by combining support frames and inserts in anthracite or pure white glossy with the colourful cover frames. Gira E3 is the perfect choice for harmoniously coordinated interior design concepts. More than 300 functions from the Gira System 55 offer maximum convenience, security and efficiency for all the demands of modern building technology.

Awards:
Iconic Awards 2016, Winner,
German Design Award 2017,
Winner.

intelligent boxes

IT'S ESSENTIAL THAT IT LOOKS LIKE YOU

Essential is the Scrigno product line dedicated to creativity. Not just counter frames, but flush-to-the wall doors with an essential design: where inner and outer frames disappear. So the wall is freer, like you, to make space for the furnishings. For, providing original solutions has been our obsession for more than 25 years.

ESSENTIAL

M500 Zutrittsmanagement

Überzeugend im Design, flexibel im Einsatz,
in jedem Gebäudetyp zu Hause.

M500 ergänzt die Möglichkeiten eines Online-Systems für elektronisches Zutrittsmanagement um sinnvolle Offline-Funktionalitäten. Das neue Mitglied der M-Systemfamilie steht für mehrdimensionale Lösungen, die u. a. zu Multi-User-Anwendungen bei der Administration großer Liegenschaften oder komplexer Anforderungen befähigen. M500 ist für nahezu alle Zutrittsszenarien und -punkte geeignet. Identmedien können mit temporären Gast-Berechtigungen programmiert und/oder an dezentralen Update-Terminals kurzfristig mit benutzerspezifischen Berechtigungen versehen werden. Komfortabel wie effizient geht Ihnen die Verwaltung von Gruppenberechtigungen von der Hand. Besuchen Sie FSB auf der BAU 2017 in Halle B4, Stand 131.
