At the fair The brands you need to see

Index 4

Lighting

The Lighting Dimension presents the complete spectrum of modern illumination and shop lighting: from the entrance area and merchandise displays to the checkout area. LED technologies, for example, open up completely new possibilities for presenting products in emotionally compelling ways.

Hall 9 6

Visual Merchandising

The Visual Merchandising Dimension at EuroShop 2020 shows you the possibilities you can use to attract the attention of your customers.

Hall 10 8

Shop Fitting & Store Design

Discover new materials and surprising solutions for greater sustainability. Get inspired by temporary design or modular concepts. Discover how nature can serve as a model for form and function. And don't be surprised when you realize: digital, digital, digital!

Hall 11 12

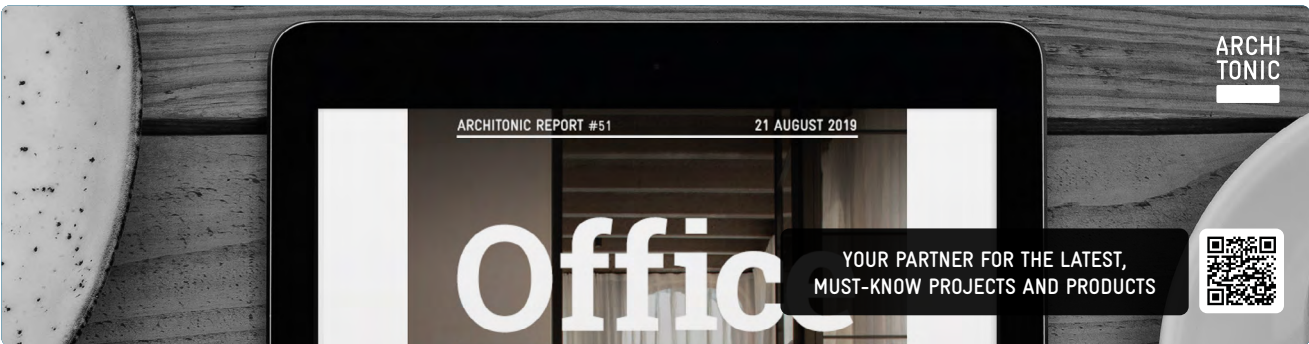

Hall 12 15

The Architonic Guide allows you to find the best exhibitors quickly. Architonic's selection is purely an editorial one and is limited to high-end manufacturers whose products are relevant to the design of buildings and spaces.

It's a guide by architects for architects.

Discover the power of more with EGGER

by Dominic Lutyens, Architonic

The Austrian wood-based products specialist knows how to satisfy its customers – combining decades of experience with state-of-the-art technology.

Shop Design with EGGER products.

With architects, manufacturers and consumers clamouring for highly individual products, design brands need to offer a multitude of designs to meet their exact requirements – and inspire them. Fritz Egger, the Austrian wood-based materials specialist founded in St Johann in Tyrol in 1961, is keenly aware of the importance of whetting its design-savvy customers' appetites with nuanced products.

Egger's pluralist approach will be evident when it unveils its new Decorative collection at retail trade fair Euroshop in Düsseldorf, from February 16 to 20, 2020. Another way to satisfy clients' needs is to offer products that channel current trends.

Visit EGGER at

Hall 11 Stand D63

With the EGGER Decorative Collection, architects and fabricators receive a coordinated package that supports them in their success.

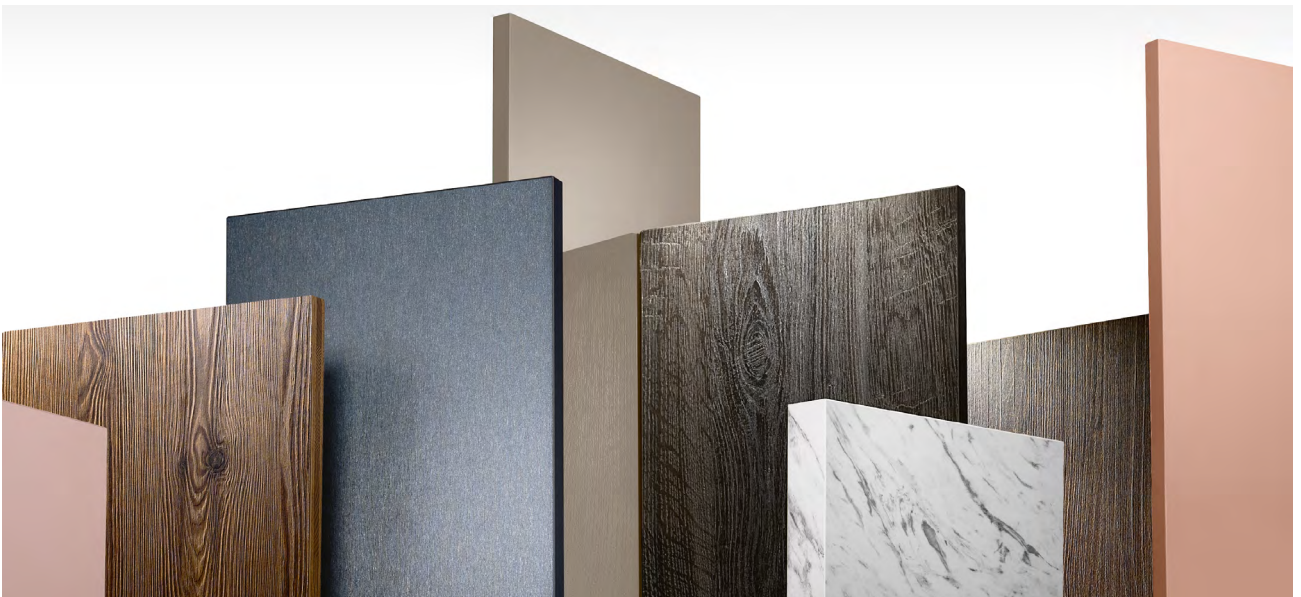

About 30 per cent of our collection is made up of new designs that reflect up-to-the-minute trends,' says Klaus Monhoff, Head of Decor and Design Management at the Egger Group. Yet Egger doesn't neglect its clients' desire for continuity. When a new design is successfully introduced, it remains in its product range – a plus in terms of reliability.

Egger's antennae have picked up on one current megatrend: a yearning for warm, organic surfaces that simulate those found in nature, and developed new products that reflect this vogue. Egger's ST32 Feelwood Vintage surface embodies our craving for natural textures with its woodgrain patterns and weathered texture. Another design, ST19 Deepskin Excellent, hints at painted wood. Yet another, ST20 Metal Brushed, picks up on the trend for metallic surfaces.

Egger has also augmented the décor range of its premium product, PerfectSense – an upscale yet robust matt or high-gloss varnished MDF panel. Meanwhile, the new ultra-resistant PerfectSense Topmatt laminate will match all existing matt lacquered panels and has a velvety, anti-fingerprint finish.

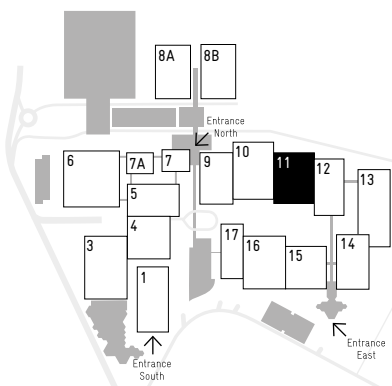

All Egger's décors – finishes in plain colours or featuring reproductions of wood or other materials – are available on classic melamine-faced chipboard or MDF boards, Euro-light lightweight boards or OSB Combiline as well as on laminate. In addition, Egger offers edging solutions that are perfectly matched or creates inspiring design solutions with acrylic accent edging.

At Euroshop, Egger will launch a new app featuring a user-friendly scanning function, all information relating to its products, a 3D structure visualiser, further information about their availability and a facility to order samples. Egger's new collection is aptly flagged up by the slogan, 'Discover the power of more': it will allow customers to enjoy countless possibilities with state-of-the-art technology.

The EGGER Decorative Collection 2020– 22: More decors and textures, more matching products and more services offer architects, fabricators and distributors more possibilities.

COPENHAGEN

BRAND ESSENTIALS. PRESENTED BY ARCHITONIC.

This is what comfortable looks like

Hygge – that Danish concept for cosy, cossetting comfort (and yes, such reckless alliteration) – is as much a state of mind as anything else. It's about being with, and being kind to, oneself and others in the here and now.

If there's a brand whose products represent the physical embodiment of this, it's most probably **Normann Copenhagen**. For over two decades now, the manufacturer has been on a mission to produce furniture, lighting and accessories for both contract and residential settings that take the edge off minimalism. Comfortable, comforting designs that make you feel at home wherever you are. Their latest Hyg lounge chair and sofa, and Form Chair, both authored by Simon Legald, do just that.

Now, where did I put those woolly socks?

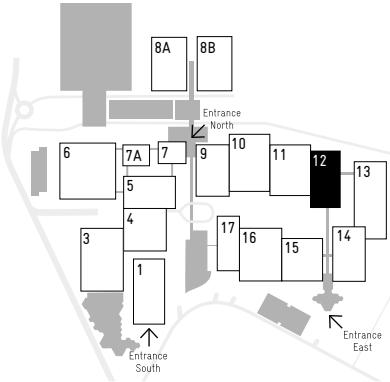

Simon Keane-Cowell, Editor-in-Chief
