Touch & Tones Collection
Sensory stimulation and variation. People thrive on them. Color and texture play a vital role, and Touch & Tones creates the combinations that make a space inspiring, surprising and invigorating.

Three coordinating styles offer a choice of texture and pile height, each with a range of neutral and bright colors. Use this collection to create zones for specific moods or functions, to help with wayfinding, or simply for a revitalizing change of scene.

And we use next generation, ultrasonic technology at our Scherpenzeel facilities that cut the carpet tiles with greater precision and at a much faster rate, eliminating 310 tonnes of material waste each year.
Specifications

Modular, 50 cm x 50 cm
6059102505
Backing System
Graphlex® Tile
Yarn Manufacturer
Aquafil
Yarn System
100% Recycled Content Type 6 Nylon
Color System
100% Yarn Dyed
Construction
Tufted Textured Loop
Soil/Stain Protection
Protek2®
Pile Thickness
0.106 in., 2.7 mm
Pile Density
7,132
Total Recycled Content

Why Our Modular Carpet?

Modular Carpet Tile
*Performance and Flexibility.* Interface’s standard backing systems set the industry standard for modular performance. Tiles stay on the floor with no upcurl, no tapping and no rippling effect, yet are easy to selectively replace. Our modular carpet is also easier to handle, install and maintain than bulky roll carpet. And, it installs with less waste so you save time and money — 3-4% for typical modular carpet compared to an average waste factor of 14% for traditional roll carpet.

Cool Carpet™
*Help Stop Global Warming and Earn a LEED® Innovation Credit.* ALL Interface modular carpet sold in North America is third party verified climate neutral Cool Carpet. Cool Carpet zeros out all greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet. And climate neutral verified Cool Carpet may be eligible for a USGBC or CaGBC LEED Innovation Credit.

TacTiles®
*No Glue Installation.* Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

ReEntry™
*Recyclable is Now a Reality.* Through our ReEntry program and partnerships with our fiber suppliers and recycling centers throughout North America, separated Type 6 and 6,6 nylon are recycled into new 6 and 6,6 nylon, while separated GlasBac® and similar competitor backings are recycled into GlasBac®RE non-virgin PVC backing using our Cool Blue™ technology. The result? Products with up to 81% total recycled content, including as much as 35% post-consumer content.

Breathe Easier
*Boost Indoor Air Quality.* Unlike VCT, carpet tiles act as filters and capture airborne contaminants below the breathing zone, where they can be removed through routine cleaning. Plus, the products in our Touch & Tones Collection meet the criteria for low VOC emissions as referenced in LEED.

Sustainable Choice
*Environmental Responsibility.* Interface was the industry’s first to publish an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). We now have published EPDs for more than 99% of our products globally.

Third Party Certification

**cool carpet™**
*Cool Carpet – Our third party verified carbon offset program zeroes out all greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet.*

**Environmental Product Declaration (EPD)** – A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified.

Printed on 100% post consumer waste (PCW) fiber manufactured using wind power.

We have tried our very best to accurately represent product colors. However, due to the nature of printed materials, color of actual products may vary slightly. Please request a sample to see actual product color.
Samples
Order samples at www.interface.com. You’ll receive email order confirmations, 24/7 access to order status and more. Not near a computer? You can also request samples by calling one of the numbers below.

InterCircle™ Sample Return
Help us close the loop on the carpet sampling process. Through our InterCircle Sample Return program, sample materials stay out of the landfill and are re-used as samples until it is time to recycle them into new carpet. By reducing sample production material and diverting old materials from the landfill, we can reduce our overall environmental footprint.

Call 1.877.605.1500 (U.S.) or 1.866.398.3192 (Canada) to order a sample return bag with a prepaid return label.

All product specifications reflect averages derived from product sample testing, are subject to normal manufacturing and testing tolerances and inherent pattern variances, and may be changed without notice. For more information about these and other important attributes of the product(s) described herein, including recycled content and product warranty information, please see www.interface.com/disclaimer.
